

### **Plastic Sheeting**

This is Plastic Sheeting's debut performance. She is not entirely sure about this whole 'acting thing' but will see where it goes for now.

## **Black Ribbon**

Black Ribbon has previous experience in a performance as part of a larger set design, but is enjoying taking on greater performance challenges. They are quite shy and to be honest, they didn't really want to be in this production but they thought it might look good on their CV.

### **Mr Parachute**

International man of mystery, no one knows his full name. There are faint whispers of a military background in advanced espionage... but not much more is known. These days he enjoys occasional forays in community theatre productions and is very excited to work on Widdershyns.
